Accounting and audit member Caminada Treuhand AG Zurich was asked to advise on a client's acquisition of a company in Switzerland. By calling on support from MSI Global Alliance members in Germany and Switzerland, it was able to complete the work quickly and effectively to enable the transaction to proceed.

What was the challenge?

A longstanding client of Zurich-based MSI Global Alliance accounting member Caminada Treuhand AG Zurich (Caminada) was hoping to acquire a target company in Switzerland with a subsidiary in Germany. To avoid complication and delay, the client wanted Caminada to lead and coordinate matters in both Switzerland and Germany, involving accounting, due diligence, legal advice, and tax advice relating to company structures and VAT.

How did MSI Global Alliance provide the solution?

Caminada Treuhand used the directory of MSI Global Alliance of member firms to contact German multi-disciplinary firm MOOG Partnerschaftsgesellschaft and Swiss law firm Badertscher Rechtsanwälte.

Both member firms responded quickly to the request, enabling Caminada to produce a timely proposal and quotation for its client.

What was the outcome?

By successfully coordinating with other MSI Global Alliance member firms, Caminada led on a successful project that saved its client both time and money. The client saw at first-hand how the firm was able to serve its long-term interests in different jurisdictions through the MSI Global Alliance and was impressed by the cross-border interaction between MSI Global Alliance members.

“Our client enjoyed cost savings and timely completion of the work, without having commit resources to coordinating a wide range of sophisticated and multi-disciplinary services in two countries.”
